

Taurus Omejia

RELEVANT EXPERIENCE

Lead Software Engineer

Stealth Monitoring Inc | Addison, Texas | 08/2017 - Current

- **Full Stack Web Development:** Architected new system of front-end and back-end Applications and Api's using a Micro Service Infrastructure build on top of a Clean Architecture (DDD).
- **Api Development:** Built and secured 5+ Rest Apis (micro services) that powered various web, mobile and windows clients, each solving specific business domain problems.
- **Software Development:** Created various windows software including windows services, WPF, and Winforms applications to fit various business needs.
- **Devops:** Implemented devops solutions utilizing Docker running on Linux on premise servers hosting over a dozen applications as a swarm. Use VSTS for CICD pipeline. Use NGINX as a reverse proxy as well as to serve static content.

Exigo

Developer & Team Lead | Dallas, Texas | 04/2015 - 08/2017

- **Full Stack Web Development** working with an large team of developers on custom enterprise back office and e-commerce solution for web and mobile.
- **Backend development** using primarily .Net technologies. C# as the primary language for all logic in the back-end. T-SQL as the main query language, Dapper as a micro ORM allowing query of data in C# code. Extensive use of LINQ for simple queries.
- **Front-end development** Developing and maintaining sites including limelightbyalcone.com, alumiermd.com, hairstory.com, lularoe.com, tyra.com, yesyoucan.com
- Develop new features on the Exigo platform.
- Deployments to azure and other cloud hosting solutions
